

# SDI COMPUTER NITROX

Nitrox is a breathing gas that has a lot of benefits for both new and experienced divers. This course will cover the use of nitrox mixtures from 22 to 40 percent oxygen.

## Who this course is for:

- The certified diver looking to advance their knowledge and skill set
- The certified diver looking to extend their no decompression time limits

## Course prerequisites:

- Minimum age 18, 10 with parental consent
- SDI Open Water Scuba Diver, SDI Junior Open Water Scuba Diver, or equivalent, or current enrolment in one of those courses

## What you can expect to learn:

- Physiology of using different breathing gas mixtures and equipment considerations for using nitrox
- How to safely use nitrox mixtures up to 40 percent with a dive computer
- Advantages and disadvantages of utilising nitrox mixtures, how to analyse a nitrox mixture

## What's in it for you?

The benefits of using Nitrox including:

- Increased safety margins
- Reduced post dive fatigue

- Extended no-decompression times

## **Pricing:**

\$250 per student

\$150 per student as a COURSE ADD-ON (add to another course for a discount)

## **Includes:**

- eLearning theory
- Nitrox tank rental

## **Not Included:**

- Standalone course is a non-diving course
- Computer (available to rent)
