

DEEP DIVER SPECIALTY

Description

SDI's Deep Diver Course is a must for any diver wishing to explore a little more, dive to the recreational depth limit of 40m, and learn the risks and benefits associated with deep diving. Many interesting sights lay just beyond open water diver training limits such as: beautiful wall dives, shipwrecks, and critters that don't come into the shallows like the Mola Mola. The purpose of this course is to provide the necessary training to plan and execute dives that are beyond the depth range experienced during an SDI Open Water Scuba Diver course, specifically beyond 18 metres/60 feet and to a maximum depth of not greater than 40 metres/130 feet.

Academic

The Deep Diver course consists of two main phases:

- Knowledge Development (via eLearning - independent study)
- 2x Boat Dives
