

ADVANCED ADVENTURER & COMPUTER NITROX OR AIR FILL STATION OPERATOR

***Earn 2 certifications upfront and be ready to take on the world. Choose between Computer Nitrox Diver or Air Fill Station Operator and learn how to fill tanks!**

ACHIEVE the next step!

Description

Your Advanced Adventurer Course will further enhance your skills and confidence to the next level. Become a better diver, more confident, more capable, unlock deeper dive sites, explore more and start fulfilling your personal diving ambitions.

2-4-1 - Students will also obtain a **Computer Nitrox** certification preparing them to dive longer and take in more of the underwater beauty throughout their global adventures OR if you already have that then learn the fundamentals behind filling air cylinders with the **Air Fill Station Operator** and take a step towards working in the scuba world. It all counts towards becoming an Advanced Diver!

At this level it is highly recommended that you own your personal items such as mask, snorkel, boots, fins, gloves, hood and wetsuit. Diving in your own gear greatly increases your comfort, decreases your stress and increases your mental capacity. That all equates to happier diving and decreased air consumption. If you don't have these yet don't stress we'll supply rental equipment and/or assist with purchasing.

Academic

The Advanced Adventurer consists of two main phases:

- Knowledge Development (via eLearning - independent study)
- 5x Open Water Dives

Dive Options

Your 5 dives are made up from 2 compulsory and 3 elective topics. We've developed the following combination to suit the global diver goals:

- Deep dive
- Navigation dive
- Night dive
- Boat Dive
- Wreck Dive

You'll Need

This course requires some dive accessories that are not included in the rental equipment.

You will need to provide the following and of course we can help out with purchases:

- dive knife / cutting tool
- torch (min 1)
- surface marker with spool
- We offer combined packages with student discounts

Getting Started

Book and pay for your course via the online checkout. Head to the shop -> dive courses -> ADVANCED ADVENTURER -> choose solo or group -> purchase ECO DIVER gear -> checkout.

We'll then contact you to arrange course material deliveries and book in course dates!

Pricing:

\$595 for 2-4 students (private courses are available)

\$990 solo

Includes:

- Equipment rental (everything including mask, snorkel, fins and boots)
- Online eLearning
- Boat dive fee
- At this level it is highly recommended that you own your personal items such as mask, snorkel, boots, fins, gloves, hood and wetsuit.

We have products available in our shop that fit our ECO DIVER ethos. If you wish to purchase equipment upfront and train in during your course, purchase with us knowing you're making an effort to reduce your diving footprint and make steps towards becoming an ECO DIVER.

Not Included:

- DSMB & Spool (surface marker)
- Torch
- Back up torch
- Knife/Cutting Tool
