

# **GEAR RENTALS. AIR FILLS. AFTER HOURS. ON-SITE OPTIONS.**

**Yep. You read right. After hours services are available!**

All of our gear is available for rent. From booties to BCDs, to from snorkels to DPVs, if you're qualified to use the equipment then it's available to you.

All of our equipment is meticulously maintained. Failure is not option. We pride ourselves on having great quality gear available to our divers and snorkelers and we want to keep it that way.

Gear hire is available to individuals, groups, clubs, schools and at times other dive shops (we've got your back!).

**What do you mean by after hours?**

There is no need for the mad dash back to the city before close of business. We want you to enjoy our ridiculously awesome sport as much as possible and dive as long as possible. After all, with some dive sites at nearly 1.5hrs from Melbourne why not spend some extra time down there and support the local businesses by having a delicious dinner or visiting some attractions.

### **How can our group get on-site rentals?**

If you have a group of divers (usually 4 full rentals or more) we'll come and kit you up onsite at a dive site on the Mornington Peninsula. We'll wait for you to finish your dive then take it all back to HQ and wash it for you!

A reasonable lead time is required to book this service so ensure you plan ahead to avoid us already being booked!

### **Cool, so how do i rent gear to book on-site support?**

Easy. Simply call, email or message us to make a reservation with your requirements and sizing. Supply proof of your certification (not required for snorkel gear). Make your payment via invoice issued or cash on pick up. We'll then have it packed and ready to go for designated pick up time. You drop it off as agreed (even if its after hours). We do all the washing up!

### **Great! What do you have for rent?**
